

Plan for Productive Struggle

Identify:

1. What strategies might your students use?
2. What questions or STTS will you use to guide any misconceptions or errors?

Discuss:

3. Justify how the STTS and questions you selected:
 - a. Support productive struggle

b. Raising status

c. Promoting equity

Reflect:

4. How will you support collaborative work/teamwork within the lesson?

5. How might your strategies promote sharing math authority with your students?
